BCF 229 - Acquisition Reporting for Major Automated Information Systems (MAIS)
(Previously BCF 209B)

The Acquisition Reporting for MAIS provides training on how to prepare an Acquisition Program Baseline (APB) and a Defense Acquisition Executive Summary (DAES) for Major Automated Information Systems. Students will complete pre-course material on-line prior to attending the two day classroom portion. During the in-class lecture and computer assisted case studies; the student learns step-by-step report preparation using the Consolidated Acquisition Reporting System (CARS) software.

Objective: Students who successfully complete this course will be able to prepare, generate and review CARS based acquisition reports but not the Selected Acquisition Report (SAR). SAR students should enroll in BCF209.

Who Should Attend: This assignment-specific course is for military officers, 0-1 and above, and DoD civilians, GS-7 and above. It is generally limited to acquisition personnel whose assignment requires preparation or review of Major Automated Information Systems Programs or reporting using the CARS software. Civilians under contract to support a military program office with a reporting requirement are eligible with the recommendation of the Program Manager. Students may take this course as a refresher to obtain information updates on the CARS software.

Recommended: ACQ101 and BCF103

Note: This course is for MAIS personnel.
Length: 2 class days.

Method of Delivery: Resident/Local
